Date of birth_ 09/25/1996

Age_ 25 years old

Nationality_ Filipino

Sex_ Male

Creative web, graphics and UI/UX designer with 4+ years of experience and proven skills specializing in designing exceptional websites, applications, and everything in between. An Engineering college dropout turned designer now working for DeliverIT Software.

EXPERIENCE

March 2020 > Present

UI/UX Designer @ EasyPOS Solutions/DeliverIT Software

Creating design proposals for mobile apps and websites to promote ideas and concepts to stakeholders. Working effectively as part of the design team to provide rapid support and feedback on tasks involving UI design, UX journey analysis and configuration to ensure a consistent approach to the customer journeys. Translate complex interactions into simple, engaging solutions and be able to communicate those solutions verbally as well as through sketches, user flows, wireframes, hi-fi mocks and functional prototypes. Working hand in hand with internal teams (Product Designer, Product Owners & Developers) to progressively move from low fidelity to high fidelity designs.

May 2019 > March 2020

Front-End Developer @ EasyPOS Solutions/DeliverIT Software

Implementing responsible web design principle to ensure that website renders well across multiple devices. Monitoring and improving website performance and traffic related to site usability problems. Design and maintain websites using the appropriate coding and scripting languages, content management tools, and other related software applications. Write, design, edit web page content, perform website updates as needed and write code for websites or web applications. Design branding and logo based on client request.

September 2018 > May 2019

Customer Support Engineer @ EasyPOS Solutions/DeliverIT Software

Monitoring and maintaining the product and service offered by the company and to troubleshoot Hardware and Software issues on the phone.

June 2018 > September 2018

Quality Assurance Engineer @ EasyPOS Solutions/DeliverIT Software

Ensuring that the products meet certain thresholds of acceptability. To test, direct or coordinate quality assurance programs and formulate quality control policies.

June 2017 > June 2018

Customer Service Representative @ RAS Contact Solutions

Managing incoming calls and customer service inquiries, Identifying and assessing customers' needs to achieve satisfaction, generating sales leads that develop into new customers.
